More notes:

1. The client will also agree to the terms as they pay - it will be in an expandable format as they book but I would like it to go via email or Whattsapp to them when they book. Ill share the sample

2. I want each section to have a good picture so that the client has an idea of what they are getting

3. I would like the landing page to have a picture of a colorful table set up – see the sample attached

4. We will have a gallery section for past parties

5. We will connect to all our socials

6. Testimonials section

7. I'd really like the website to rank high – please guide on this

8. I'd also like a shop to sell gift packages – e.g if I'm holding a party for someone I could also go pick some gifts (extra revenue)

9. The main color is royal purple, lavender, and whatever else can match that theme

Have I left out anything? Guide me please

Thank you
